- 3D Modeling - Animate - Materials - Materials In Element Form - Light And CameraDownload A Police Jury Law Textbook A Police Jury Law Textbook This Police Jury Law Textbook offers a clear, easy-to-read primer to Louisiana law as it applies to a Police Jury. It does so by describing the organization and function of the Police Jury, the duties of the Police Jury members, and the basic powers of a Police Jury. A Police Jury is the governing body of a police jury district. The Supreme Court of Louisiana created the Police Jury and authorized the creation of police jury districts in 1873. A Police Jury is comprised of the members of a police jury district. Each Police Jury district has a Police Jury, which has a budget, electoral system, by-laws, elections, committees, members, and sometimes staff. The police jury maintains a record of its proceedings, that is available to the public. The main purpose of the Police Jury is to act as the legislative body of the police jury district. In other words, the Police Jury can amend the police jury district charter, adopt rules and regulations, enact and repeal ordinances, and adopt budgets and contracts. A police jury district may have up to three police juries. Police juries are named after the location in which they are created. The members of a police jury are elected by the people of the police jury district. A police jury district usually has one resident and one non-resident member. A Police Jury also has one administrative officer, called the clerk of the police jury. The Police Jury also has a clerk who is usually a lawyer. The Police Jury meets at least once per year. Members of the Police Jury are elected by the people of the police jury district for a three-year term of office. The new members are chosen in the general election that occurs at the first meeting of the new Police Jury. Usually, a police jury district has one voter for every 200.000 citizens. A police jury district, or the police jury within a police jury district, may have up to 25 members. Some police jury districts may have as few as one member. The districts and the members of the police juries for each district are fixed by law. A police jury district may have three or more police juries. There are a few reasons for having multiple police juries in a police jury district. Police juries serve three purposes in the state. A police jury is part of the judicial branch of state government
