Extractor of SpreadTrum firmware files with pac extension -
GitHub - Divinebird/pacextractor: Extractor of SpreadTrum
firmware files with pac extension. To flash (restore)
Spreadtrum phones with S5, SC54X, SC68X, SC684 processors
without using a programmer or without a PC, you need to use
this unpacker. The archive contains: PAC programmer,
unpacker itself, folder with firmware (zip archive). The PAC
programmer is a programmer that flashes the firmware into the
phone through a connector on the board, using a cable. The
unpacker is a program that unpacks the firmware files and then
uploads them to the phone.
